

# Ferrari

Company profile

## The philosophy of success

### Ferrari

Ferrari is creativity, intelligence, expertise and know-how applied to the furniture industry.

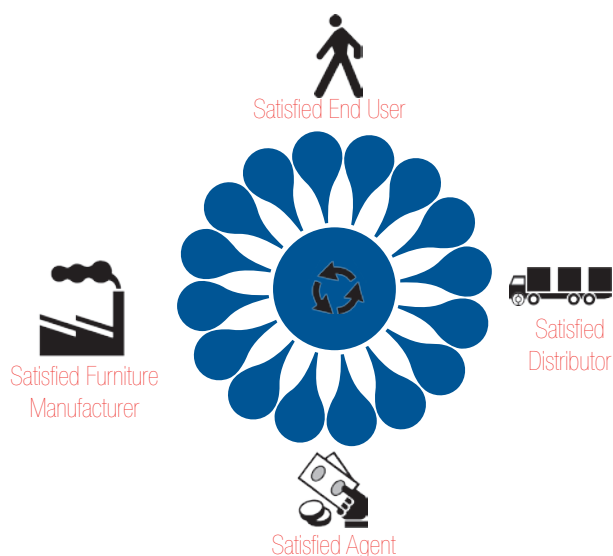

This is how we won the trust of customers all over the world.

The company vision is a Ferrari (fitting) in every home. Ferrari is design made in Italy, applied to make innovative products to improve furniture design, functionality, and comfort to satisfy end users and manufacturers.

Ferrari works to provide quality, affordable and sustainable products, with particular care for environmental issues and the employees' working conditions.

Design, comfort, precision, resistance, durability, and quality are the reasons as to why the best furniture manufacturers in the world choose Ferrari.

### The circle of satisfaction is the key to Ferrari success

Ferrari means quality.

Choosing the quality of Ferrari products creates a win-win-win cycle.

The end users will be delighted, so will be the furniture manufacturers, the distributors and the agents.

The customer satisfaction becomes delight when comfort, design, functionality, and aesthetics meet.

This process creates a loyal circle of trust and success.

The history of success

## Furniture hinges on Ferrari

Ferrari was founded in Lecco (Italy) in 1947 and since then the production of furniture hinges and accessories has continued.

The long experience in this industry helped to develop modern products with a high level of technology, all of which are internationally patented.

Innovation, dedication and enthusiasm have strongly characterised the company personality, resulting in a global growth that makes Ferrari active in over 70 countries.

This fast expansion created a need to move the company in 2001 to the new headquarters in Verderio S. (LC), where Ferrari has more room and modern plants.

Ferrari has directed the technologic evolution of the furniture industry starting from the piano hinge to the modern concealed hinges, expanding the product range including the lid stays, drawers, drawer slides, sliding door fittings, fittings and other furniture accessories.

The name of success

## The surname Ferrari

The Italian surname Ferrari comes from the latin “faber ferrarius”, which means metalsmith. The name itself is strongly and historically connected to metal working.

Many families carrying this surname have reached global success thanks to their courage, their skills, and their entrepreneurial capability.

The whereabouts of success

## The heart of furniture

The company was founded in Lecco, at the center of the Brianza, a rich industrial region of Italy where many talented artists came and worked. The most famous of them was Leonardo.

It is widely recognized after all that the landscape behind the “Mona Lisa” is actually the same place where now the Ferrari headquarters are located.

This region is historically connected to furniture production and metal working.

For this reason Ferrari is the heart of furniture.

## Branding

Furniture fittings: concealed hinges, stays, drawers, drawer slides and sliding door fittings.

Production and distribution of quality furniture fittings.

The whole Ferrari product range is also available under the IC Ferrari brand.

The IC Ferrari ECO line provides quality at affordable prices.

Zamak and magnesium die casting and die design.

Premocs applies the most modern and innovative machinery to design and manufacture precision products.

The activity covers several applications, such as furniture components, locks, electronics, pneumatic components, household appliances, helmets, etc.

The commitment to quality

## Ferrari & Quality

Ferrari is strongly committed to quality, as it is well aware that it is the key to satisfy end users and furniture manufacturers.

Ferrari implements strict Quality Control Programs in all manufacturing processes regulated by internal procedures, from the raw materials to finished products, to manufacture high quality products.

Ferrari has the UNI EN ISO 9001 Certification since 1997 and the UNI EN ISO 14001 Certification since 2003.

Ferrari sends the products periodically to International Institutions from several countries (Italy, Germany, USA, United Kingdom, France, Spain), in order to carry out independent tests to confirm the qualification of “supplier of high quality fittings”.

Quality

## The respect for the environment

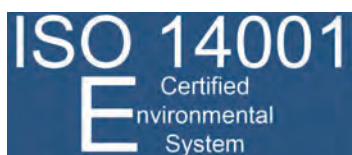

## Ferrari & the Environment

The Environmental Management System is managed according to ISO 14001:2004, EU and Italian laws.

The system is established to guarantee that all the company production activities respect the environment.

The system is continuously documented, updated and improved.

The system is shared with all the employees, customers, suppliers and stakeholders.

## Ferrari & Design

### Innovation, Patents, Design

Ferrari believes in constant innovation, that is why it implements innovative technologies to develop unique products.

Over 200 international patents protect the product uniqueness.

The Ferrari design has been recognized with several international awards, appointed by the most prestigious institutions.
